

safe work australia month **october 2014**

Safe Work Australia Month (safety month) is held around Australia throughout the month of October.

Safety month encourages people to get involved in and concentrate on safety in their workplace to reduce death, injury & disease.

This year's theme is

“Work safe. Home Safe”

which reminds us that the most important reason for making our workplace safe, is not at work at all and we want to return safely home to our friends, family and loved ones.

Absolute Plumbing Qld is committed to improving health and safety in our workplace and building a positive safety culture.
