

AUSTRALIA MADE LOGO ANNOUNCEMENT

30th March 2015

Innovative Splashbacks are excited to announce that our splashbacks, as of 25th March 2015 are proudly certified as qualifying for the Australian Made logo.

We are the ONLY acrylic/polymer splashback product in Australia who has this certification to date. Clearly putting us way ahead of the competition.

This certification and of course being 100% Australian owned is yet ANOTHER reason our splashbacks have quickly become the "glass alternative" product preferred by clients nationwide.
