

RE^{THINK}

RE^{THINK}

In this book we introduce you to products from the leading electrical brands: Legrand, the iconic Australian brand HPM, and BTicino. All of these brands belong to the global Legrand Group. Legrand has been innovating brilliant electrical solutions for the home for more than 100 years and has a presence in 170 countries. With manufacturing facilities and a dedicated research and development laboratory in Australia, as well as a network of design studios and factories abroad, Legrand is the world leader in the design and manufacture of switches and sockets. You are about to see why.

RETHINK: THE POSSIBILITIES

How the humble light switch has evolved. Now featuring innovative technology and sophisticated design, you'll be surprised how electrical accessories including switches, sockets, lighting, intercoms, fans, and home automation, can enhance your surroundings and increase your comfort at home. So RETHINK your electrical: choose fixtures and fittings to suit the life you've always wanted, and finesse your interiors with endless possibilities of colour, style and function. Remember, life is in the details.

“Great design is
a multi-layered
relationship
between human
life and its
environment.”

NAOTO FUKASAWA *Industrial Designer*

Electrical products are a part of everyday life. In this section, we show you how they can enhance the way you live and guide you through the essential items for each room in your house. For the tech-savvy and technophobes alike, our ranges will revolutionise your home and how you live in it.

01 ROOM-BY-ROOM GUIDE

KEEPING YOU CONNECTED IN THE 21ST CENTURY

Staying connected in your home is more important now than ever. In this digital age we use online services everyday to make life easier. Why not RETHINK your electrical plan, ensuring the highest level of functionality and convenience for your home. Legrand ELIOT solutions enable you to interact with products in a simple and efficient way: that's the Internet of Things! ELIOT can make your everyday objects fit your lifestyle and your preferences. With remote-controlled lighting, blinds, music, etc. comfort is at your fingertips using your tablet or smartphone, even when you're away from home. ELIOT lets you personalise the configuration of your home, even remotely, by creating scenarios that suit your needs. It multiplies the functions of electrical equipment to create a simpler, more fluid experience in your home. Legrand ELIOT solutions keep you connected now and in the future as your family grows and changes.

THROUGHOUT THE BROCHURE WE'VE OUTLINED SOME GREAT TIPS TO HELP YOU GET THE MOST FROM YOUR ELECTRICAL PLAN.

COMFORT

A sense of comfort should wash over you from the moment you walk through the door. Breathe fresh, healthy air, soak up mood lighting and enjoy music wherever you are. Immerse yourself in your home surroundings.

ENERGY SAVING

Taking simple steps can help you reduce energy wastage and save you money.

PLANNING

Planning for the future is important. What might be a spare bedroom now, may become a home office, or a teenager's room in years to come. Being prepared and planning for changes will save you money and hassle in the future.

CONVENIENCE

With appropriate lighting, power where you need it and a good internet connection, you'll breeze through your daily tasks.

SAFETY

Following our safety tips offers peace of mind and the confidence of knowing your family is safe.

DESIGN

Beautiful design details such as colour, texture and finishes can help add that finishing touch.

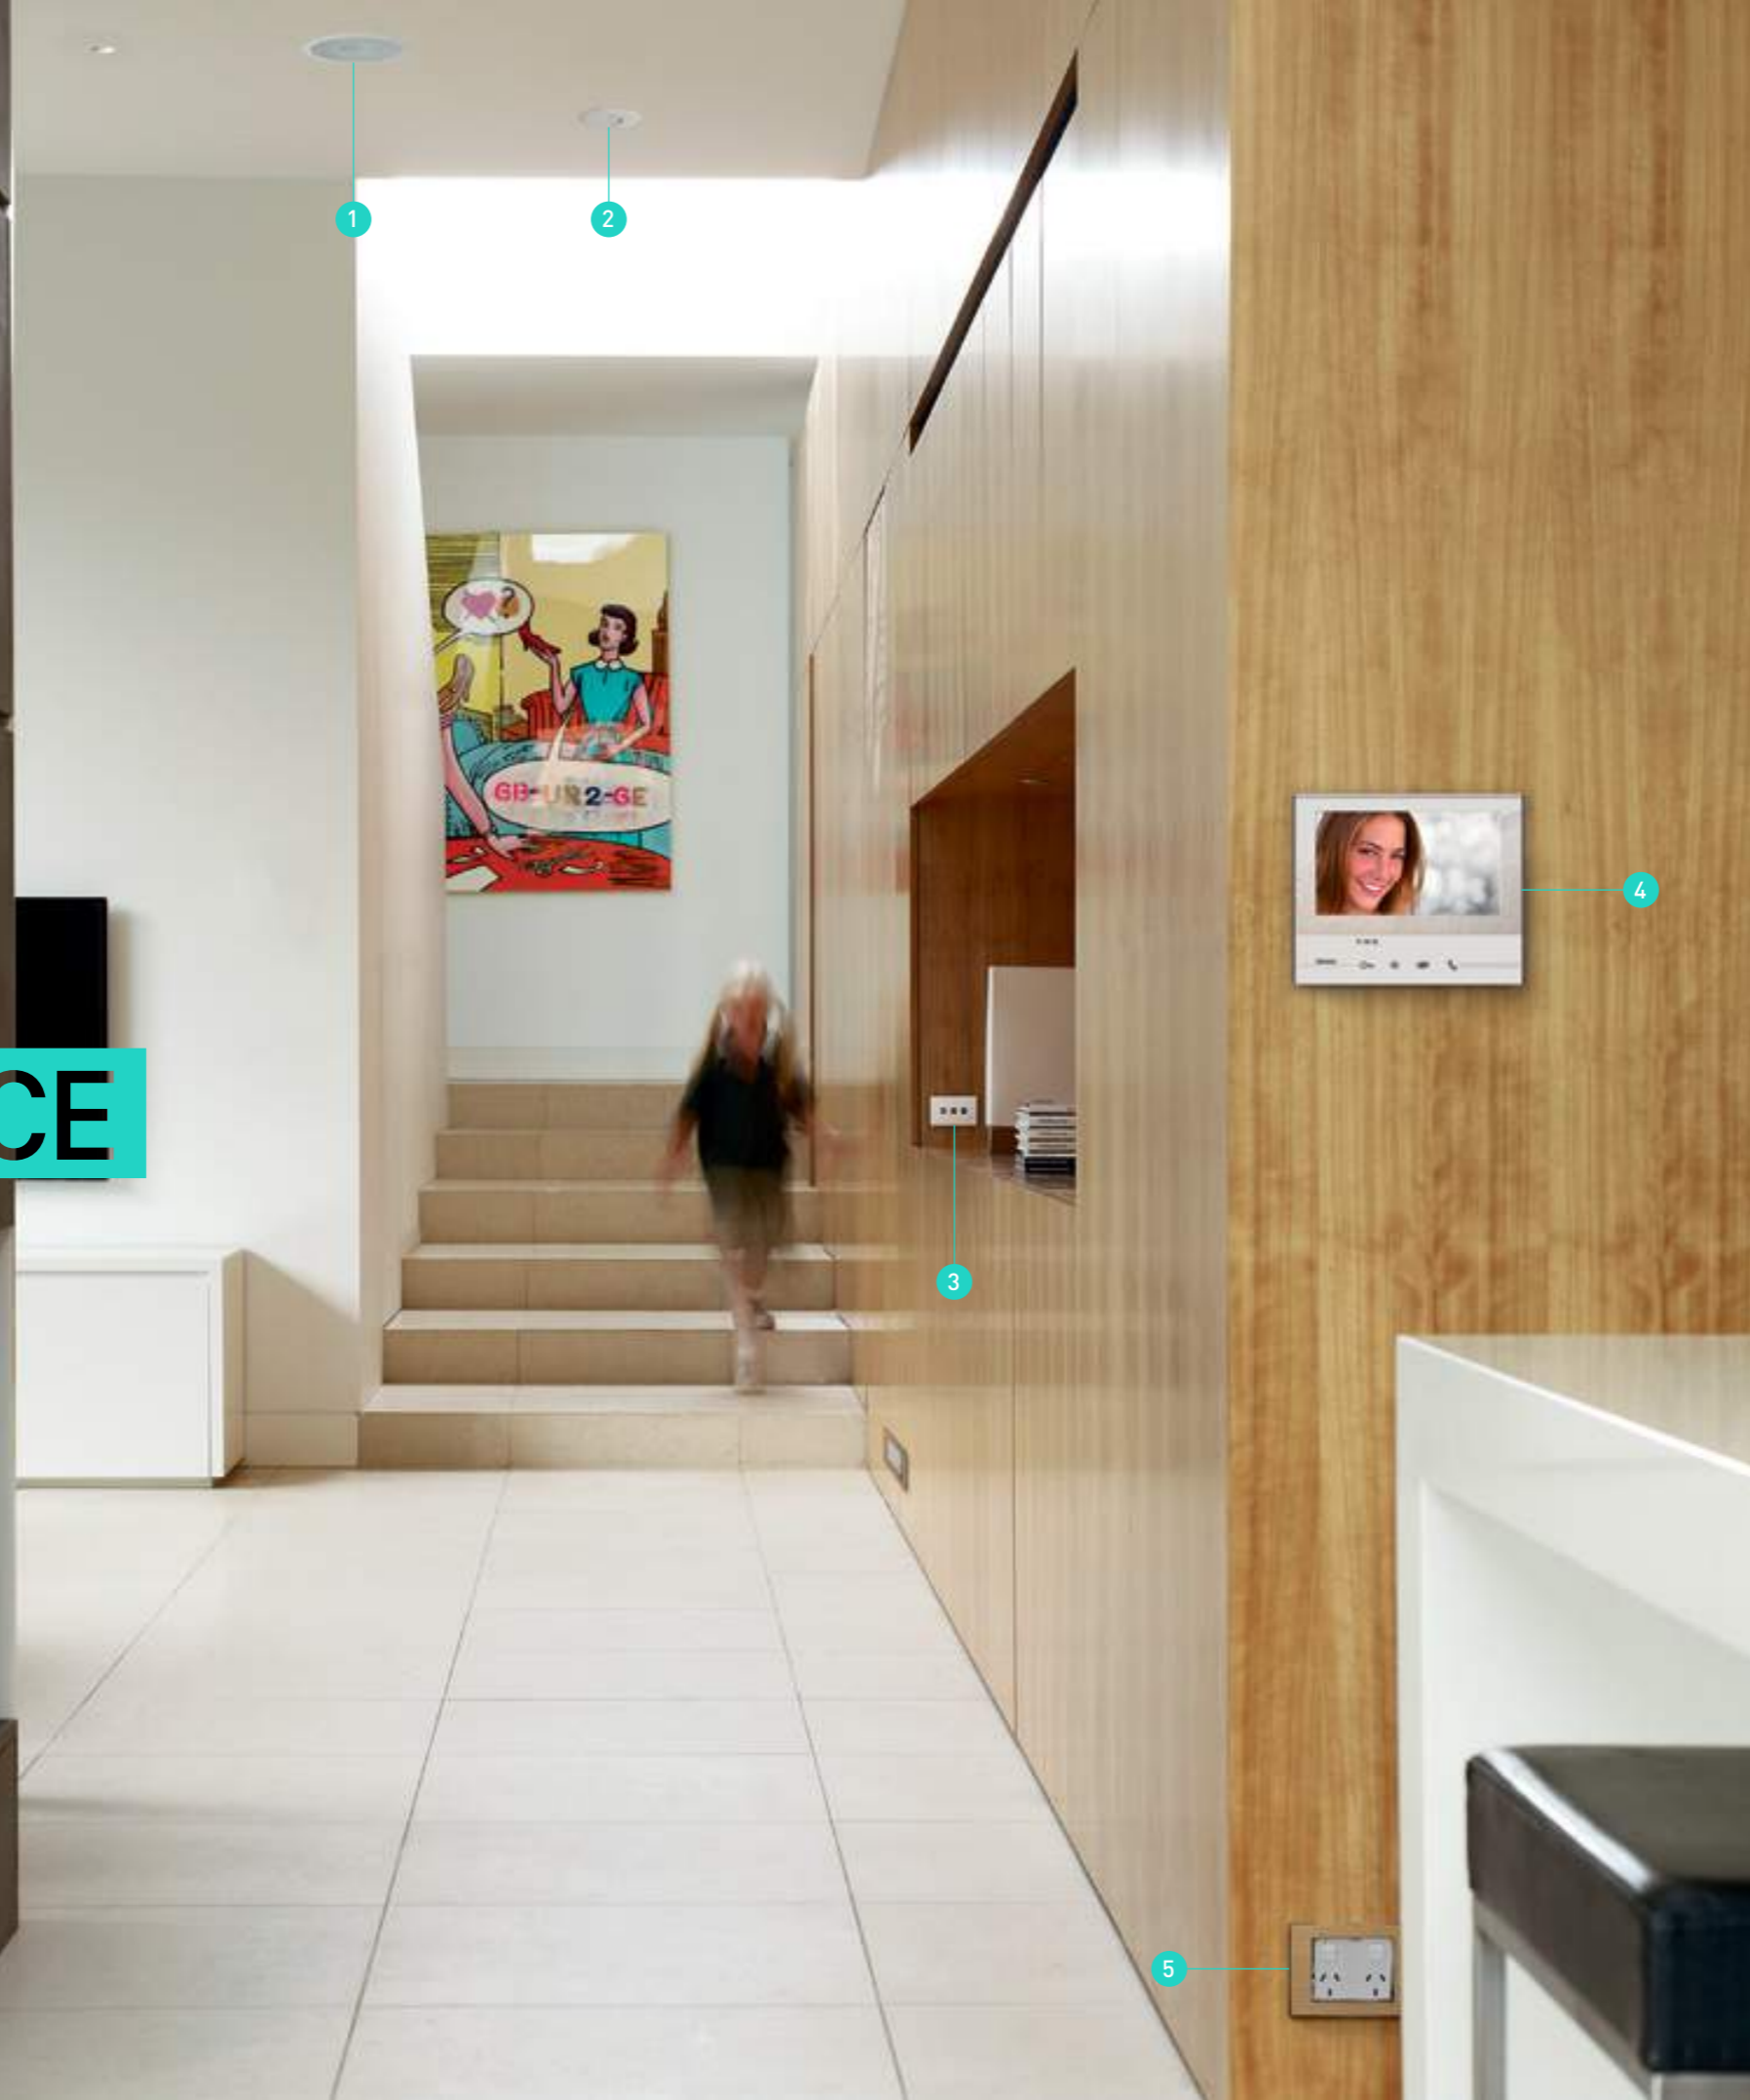

TIDY

Look out for our tips on how to hide messy cords.

Our products are rigorously tested to comply with Australian and New Zealand standards. Not all products sold in Australia do, so it's always worth asking "does it comply?".

INTELLIGENTLY
DESIGNED
FIXTURES CREATE
SOPHISTICATION
AND SAFETY FROM
THE WORD GO.

RETHINK: THE ENTRANCE

RETHINK : THE ENTRANCE

SAFETY TIP

Use a video intercom system to screen visitors and keep your family from opening the door to strangers.

CONVENIENCE TIP

Consider an outdoor motion sensor to automatically turn on the light when you arrive home so you can easily find your keys and safely walk along paths and steps.

PLANNING TIP

Remember to add powerpoints in hallways and entrance areas for activities like vacuum cleaning.

1. Legrand Ceiling Speaker L4566
2. Legrand Satellite Emergency Light 684850
3. Legrand Excel Life USB Charging Station ED770/36PLWE, 3xEMUSB2PSAWE
4. BTicino Classe 300 Wifi Intercom 344642
5. Legrand Arteor Powerpoint in Light Oak AR777WE, 576479

CONVENIENCE TIP

Have a two-way switch at each end of a hallway so you can turn lights on and off at either end.

“The function of design is letting design function.”

MICHA COMMEREN *Designer*

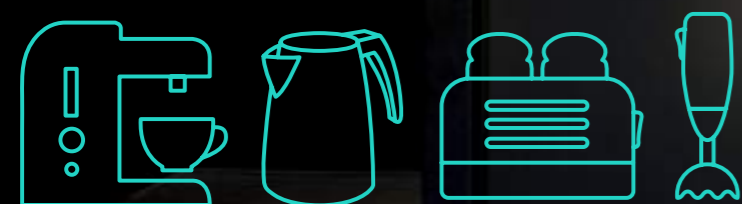

THE HEART OF YOUR HOME. MAKE THIS SPACE WORK FOR YOU AND CREATE A SLICK SOCIAL HUB.

RETHINK: THE KITCHEN

THE KITCHEN IS A VERY BUSY SPACE. THINK ABOUT ALL THOSE APPLIANCES YOU LOVE TO USE AND PLAN FOR PLENTY OF POWERPOINTS RIGHT WHERE YOU NEED THEM.

COMFORT TIP

Light dimmers in your kitchen are perfect for switching between the brighter light needed during cooking, and mood lighting for dining.

TIDY TIP

Avoid the clutter of cords by adding powerpoints in your pantry. Charge items such as mobile phones and handheld vacuum cleaners behind closed doors.

1. HPM Cylla Cylinder Pendant Light LPD013KWE
2. HPM Starlights LST023KPS
3. Legrand Arteor Wireless Charging Station 572076, 575253, 571910

“...when a design is completed, it should seem natural and obvious. It should look like it is always been this way. And it should last”.

ROGER BLACK *Designer*

COMBINE FUNCTION AND LUXURY TO CREATE THE ULTIMATE SPACE FOR RELAXATION.

RETHINK: THE LIVING ROOM

PLANNING TIP

Think about where you'll place your furniture then ensure your powerpoints and TV sockets will be easily accessible without needing to move heavy sofas and cabinets. Add a few extra sockets in case you reconfigure your furniture.

CONVENIENCE TIP

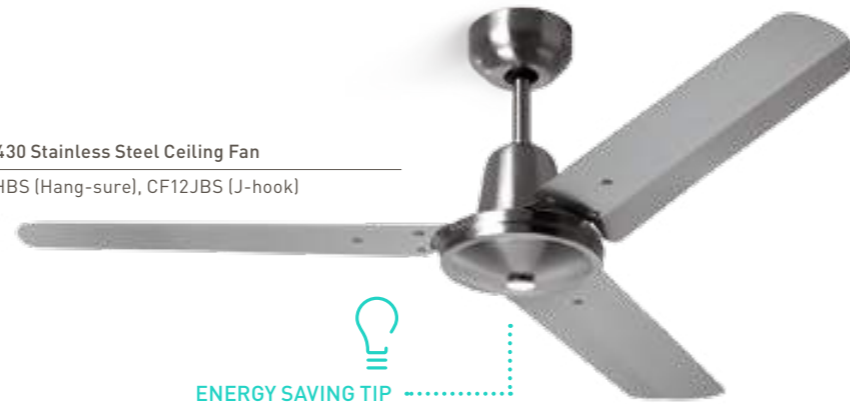

If you like working on your laptop whilst watching TV, install a data socket nearby for a more reliable connection than WiFi.

COMFORT TIP

Installing dimmers in your living room gives you the freedom to create the ultimate space for relaxation. Brighter lights for reading, or mood lighting for snuggling-up makes your living room a functional and luxurious space.

HPM 430 Stainless Steel Ceiling Fan
CF12HBS (Hang-sure), CF12JBS (J-hook)

ENERGY SAVING TIP

Ceiling fans increase the efficiency of air-conditioning and heating.

KICK OFF YOUR SHOES AND CREATE TRANQUILITY WITH SOME CAREFULLY CHOSEN PIECES.

DESIGN TIP

Keep your wallplates consistent. These are a stylish alternative for controlling blinds, curtains, awnings and shutters.

“Design is not just what it looks like and feels like.
Design is how it works.”

STEVE JOBS *Entrepreneur*

RETHINK: THE BEDROOM

RETREAT AND SWITCH OFF WITH CLEVERLY ADAPTED FITTINGS FOR A PRACTICALLY PERFECT PERSONAL SPACE.

COMFORT TIP

Using lamps and dimmers in your bedroom gives you the freedom to alternate the way you utilise this space. Applying make-up or dressing may require brighter lighting, while relaxing calls for a softer hue.

CONVENIENCE TIP

Ask yourself what you'll need to plug-in at your bedside — lamp, clock radio, phone charger, laptop — and ensure you have enough powerpoints. Consider a data socket for the internet. Remember, WiFi signals are slower and more unreliable.

PLANNING TIP

Kids rooms require planning. The needs of children change as they grow older, so ensure you install enough powerpoints to cater for changing bedroom layouts, and data sockets for the internet.

1. HPM Cersi LED Pendant Light LPD023KWE
2. Legrand Arteor Wireless Touchplate Switch PR0661
3. HPM Linea Double Powerpoint & USB Charger in Abracadabra LN777XBL, LN777XPLAU, 770USB2PSAMBL
4. HPM Linea Data Socket in Abracadabra LN770/1RJ1BL, LN770/1PLAU

CONVENIENCE TIP

Legrand Arteor wireless light switches can be stored on a bedside table and used like a remote control. No more sleepy walks to turn out the light!

“Everything should be made as simple as possible, but not simpler.”

ALBERT EINSTEIN *Theoretical physicist*

RETHINK: THE BATHROOM

INSPIRED PERSONAL TOUCHES
LIFT THIS ROOM, GIVING YOU A CLEAN,
RESTORATIVE EXPERIENCE.

1

2

3

4

TIDY TIP

Keep your vanity benchtop free of cords; consider installing a powerpoint in the cupboard for tidy charging of electric toothbrushes and shavers.

COMFORT TIP

Ventilation is critical in bathrooms to control condensation and mould. Make sure ventilation capacity matches the size of the room and plan for cross ventilation to maximise efficiency. Run-on timers keep your exhaust fan running for a set period after you've turned it off, making it more effective.

PLANNING TIP

Powerpoints for electrical devices in the bathroom are paramount. Keeping them a safe distance from water sources is important, so be sure to think carefully. Check with your designer or electrician regarding regulations.

1. Legrand Arteor Shutter Switch in Woven Metal 573220, 576427, 571920

2. Legrand Arteor Bluetooth Sound Diffusion 573204, 575254

3. Legrand Arteor Powerpoint in Woven Metal AR777AWE, 576477

4. HPM Pendi Square Pendant Light LPD033KPS

ENERGY SAVING TIP

CONCENTRATE IN COMFORT: ELEVATE THE INTELLIGENCE IN THIS SPACE AND CONNECT TO THE WORLD.

More and more people are working from home, studying or running a small business on the side. A dedicated, organised home office space will help boost your concentration and improve productivity.

THERE ARE MANY APPLIANCES YOU'LL WANT TO PLUG IN THIS ROOM. WHEN PLANNING YOUR HOME OFFICE, MAKE ALLOWANCES FOR DATA CONNECTIONS, USB CHARGERS, AN EXTRA PHONE CONNECTION IF YOU HAVE A SEPARATE BUSINESS PHONE NUMBER, AND OF COURSE, PLENTY OF POWERPOINTS.

COMFORT TIP

Enjoy working to music with a multi-room audio system. Wall or ceiling speakers will give a richer sound than your computer, and keep your desk free of cords and bulky desk speakers.

PLANNING TIP

Ceiling fans will help you control the heat generated by computers and monitors.

Legrand Excel Life Rocker Switch

LED Rings

RETHINK: OUTDOOR LIVING

1

2

3

COMFORT TIP

If you love to entertain, then consider networking your sound system outdoors. Turn the music up during summer soirées.

PLANNING TIP

Weatherproof powerpoints for portable appliances such as power tools, edge trimmers, party equipment and garden lighting are essential for outdoor areas.

CONVENIENCE TIP

Lighting near your washing line makes it easier and safer to hang out or bring in your washing after dark.

1. Nuvo Outdoor Speaker NVAP160W
2. Legrand Outdoor Motion Sensor 488TRI3W
3. Legrand Soliroc Outdoor Powerpoint 77894

02
LEARN MORE

TAKE YOUR HOME TO THE NEXT LEVEL WITH MyHOME® AUTOMATION.

LEARN MORE: HOME AUTOMATION

Imagine you're at work. You receive a message on your phone telling you there's someone at your front door. A mobile app that connects to your CCTV shows you that it's that important delivery you've been waiting for. You can talk to the driver, unlock your front door remotely, and ask him to drop off the package, while viewing what's going on. Welcome to the new age of home automation.

WHETHER YOU'RE A TECHNOLOGY ENTHUSIAST, WANT TO MAKE SURE YOUR HOME WILL ATTRACT THE BEST RESALE PRICE, OR SIMPLY LIKE CONVENIENT, TIME-SAVING PRODUCTS, MyHOME AUTOMATION MAKES YOUR HOME WORK FOR YOU.

MyHOME automation systems allow the electrical systems in your home — such as lighting, air-conditioning, audio entertainment, security systems and video intercoms — to communicate with each other. Working on a special type of wiring, all these separate electrical functions can be controlled together from central points in your home, or from external locations via apps. For example, a 'Goodnight' switch in your bedroom allows you to turn off all the lights in the house and close the blinds.

TAILOR YOUR HOME TO YOUR PERSONAL NEEDS AND MAKE LIFE EASIER. EVERYDAY.

REMOTE CONTROL FROM WHEREVER YOU ARE — THE COUCH, THE POOL, THE OFFICE.

GET INVENTIVE TO CREATE COMFORT AND EASE IN YOUR HOME. HERE ARE SOME OF THE BRILLIANT THINGS A MyHOME SYSTEM CAN DO FOR YOU:

01

OFF SITE REMOTE CONTROL

Linking your intercom system to your mobile phone is a smart way to speak to visitors when you're not home. You can even let people into your home to drop off parcels, clean or do repairs and watch them on your phone or laptop.

02

AUTO 'GOODBYE'

Including a 'Goodbye' scenario is a great idea. This function allows you to turn off all lighting, air-conditioning, floor heating and close blinds to save energy and turn on the third-party alarm system when you leave the house for extra security.

03

SAFETY 'LIVED IN'

A 'Lived In' scenario is great for when you're on holiday. This setting activates blinds and lighting at specific times to deter intruders.

04

AUTO 'GOODNIGHT'

A 'Goodnight' scenario can turn off all lighting and shut all blinds, shutters and curtains when you go to bed.

05

APP CONTROL

Using a laptop, iPad, iPhone or Android phone, you can control sound, lighting, temperature and your intercom without having to leave the comfort of your couch.

06

AUTO 'MOVIE'

Program a 'movie' scenario to set the scene: dim the lights and close the blinds for perfect viewing.

07

ENERGY MONITORING

View total everyday usage data from any touchscreen. Being aware is the first step to saving energy.

08

TIMERS & SENSORS

By using timers and sensors, have your blinds, shutters and curtains open and close according to natural light levels outside — this can help reduce energy consumption and keep your home more comfortable.

09

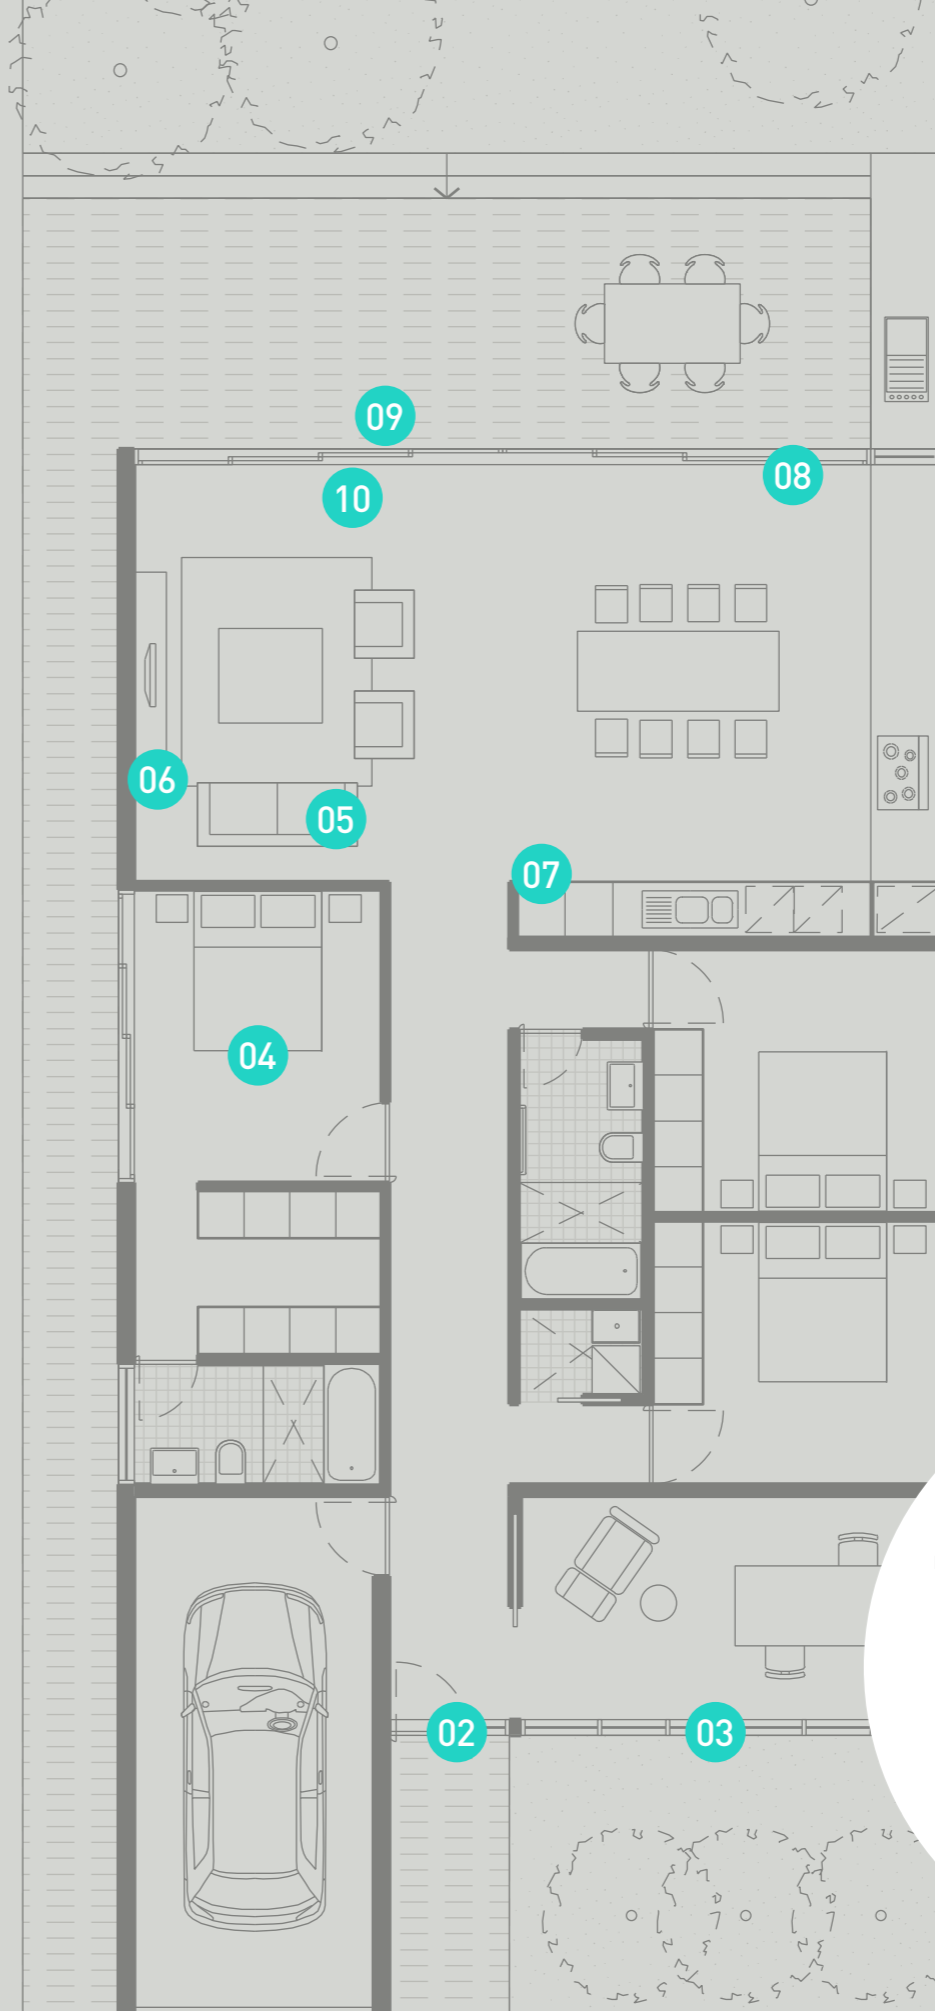

ENTERTAINMENT

By programming an 'Entertaining' scenario, you can create the perfect ambience. One button can dim the lights on your verandah, start your 'Party' playlist and illuminate your garden lights.

10

TEMPERATURE CONTROL

Remotely turning on your home air-conditioning using your mobile device ensures your home is the perfect temperature upon arrival.

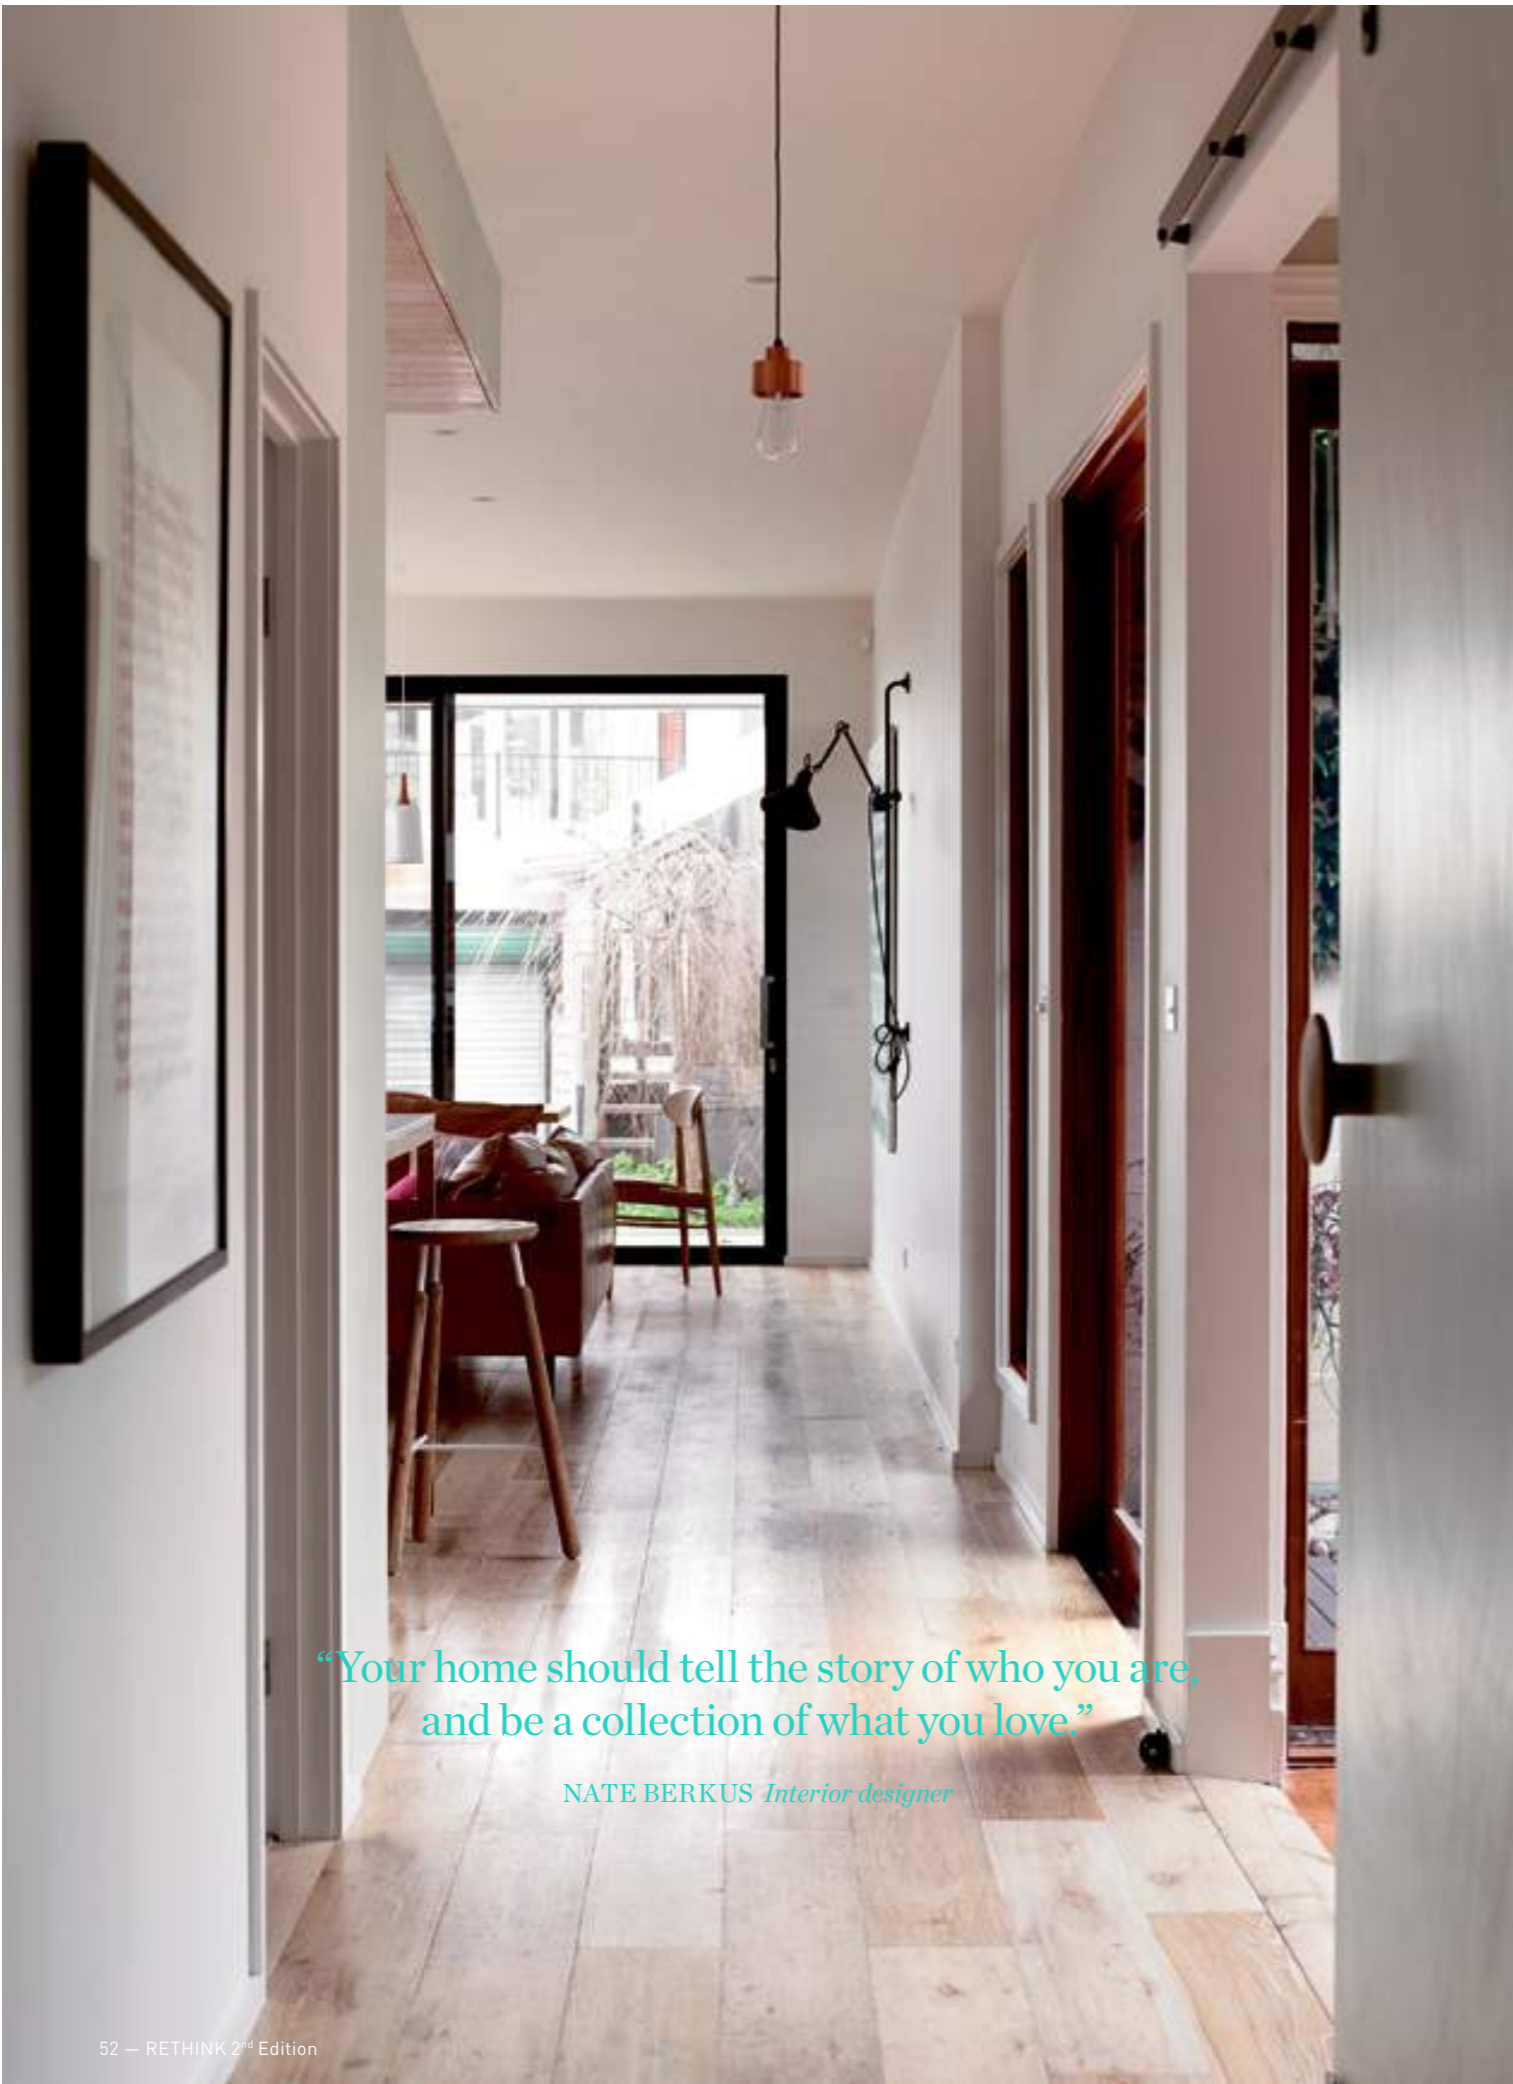

KEY DIFFERENCES OF A MyHOME SYSTEM

MODULARITY & EXPANDABILITY
 Unlike other systems, you only need to install and pay for the functions you want, not a huge complex system you'll never use. Once you have the basics installed you can add additional functions later. All of the functions might not be within your budget initially, but can be added easily in the future.

UNIFORMITY
 Conventional devices, such as powerpoints, share the same design aesthetic as automation control devices, so all of your switch plates will look great together.

EASE-OF-USE
 The MyHOME automation system is easy to install, saving you on installation costs. Anyone can use the system, from techy types to technophobes.

MyHOME systems are for everyone, regardless of budget and skillfulness with technology. If you are keen to learn more, the best thing to do is speak with a MyHOME installer. They can customise a system to suit your lifestyle and budget. Our Customer Service team can help you find an accredited installer. Give them a call on 1300 369 777.

“Your home should tell the story of who you are,
and be a collection of what you love.”

NATE BERKUS *Interior designer*

ENERGY SAVING

ENERGY MONITORING SYSTEM

It pays to be aware! See how much gas, water and electricity your home is consuming and even how much power your solar panels are generating. By setting tariff values you can keep track of how much your next bill is likely to be too. Here are some examples of what you can display:

- Instantaneous consumption
- Daily and monthly consumption
- Total consumption for the last 12 months

Legrand MyHOME 3.5" Multimedia Touchscreen
573958, 576483

Legrand MyHOME 10" Multimedia Touchscreen
067219

TIME SWITCHES

Set & forget! Use time-delay switches to automatically turn off towel rail timers and exhaust fans after optimum periods of time. If you have garden lighting and irrigation systems, save yourself the hassle — let digital time switches turn them on and off. They can manage up to eight weekly programs.

HPM Excel Towel Rail Timer
XLP770TRTMWE

Legrand Excel Life Time Delay Switch
ED770/1GPLWE, EM802TDWE

Legrand Excel Life Digital Time Switch
EC923TWE

MOTION SENSORS

Sensors switch lighting on and off according to the presence of people — minimising the energy wastage caused by people forgetting to turn lights off. Use them in areas such as walk-in-robbers, hallways, and children's bedrooms and bathrooms. Your electrician will help you choose the best areas and the right sensor for each location.

HPM Indoor Motion Sensor

Legrand Outdoor Sensor
488TRI3W

HPM Maxis LED Floodlight with Motion Sensor
LSS0209WBL

DIMMER SWITCHES

Dimmer switches, or a MyHOME lighting control system, give you greater control of your lighting. Turn lights up for reading, working and cooking, or set the mood and reduce energy wastage when relaxing and entertaining by dimming lights.

SAFETY

EXTRA-SAFE POWERPOINTS

With patented spring-loaded covers that keep the powerpoint closed when not in use, extra-safe powerpoints keep inquisitive young fingers safe and sound.

HPM Linea Extra-safe Powerpoint in Cheeky Boy Blue
LN777ESWEWE, LN777ESPLSB

RESIDUAL CURRENT BREAKERS WITH OVERLOAD PROTECTION (RCBO) AND SURGE PROTECTION DEVICES

Ask your electrician to add RCBO's to the distribution board in your home. These add an extra level of protection against electrocution and transient voltages. Having one RCBO for each circuit means if one trips, only one circuit will be affected, not your whole house.

Legrand RCBO 411131

Legrand Surge Protection 412301

SMOKE DETECTOR

It's a mandatory requirement in all new homes that 240V smoke alarms are installed by an electrician. You'll need at least one on each floor. Place them outside the kitchen, bedrooms and in hallways.

Legrand Photoelectric Smoke Alarm 643085

EMERGENCY SATELLITES

Forget torches and candles, emergency satellites guide the way during black outs. When the power is cut, they automatically come on, providing a guiding light so you can walk around safely.

Legrand Satellite Emergency Light 684850, 201525

INTERCOMS

Intercom systems are not only convenient, they also help keep your family safe from opening the door to strangers. If you have a large, multi-storey home, install internal panels in a few key locations — at least one on each floor — to make them easier to get to when someone calls.

BTicino Classe 300 Wifi Intercom 344642

LEARN MORE: LED LIGHTING EXPLAINED

GUIDE TO LIGHT COLOUR

Expressed in Degrees Kelvin (K), light colours are the key to determining the mood of a room.

COLOUR	DEGREES	DESCRIPTION	ROOM
WARM WHITE	2700-3000K	SOFTER, WARMER LIGHT Comparable to traditional incandescent lighting. Preferred in cooler climates.	BEDROOM, LIVING ROOM, BATHROOM, KITCHEN
COOL WHITE	4000K	NEUTRAL LIGHT Used for task lighting and preferred in warmer, tropical climates.	LAUNDRY, GARAGE, STUDY, BATHROOM, KITCHEN

DURABILITY

LEDs are very long-lasting compared to other lighting technologies, with an average 30,000 hours life expectancy. We use quality components which make our lamps even more durable, being laboratory tested and assessed at 30,000 hours life expectancy. That represents approximately 20 years based on three to four hours usage per day.

LED
30,000 HOURS

COMPACT FLUORESCENT
10,000 HOURS

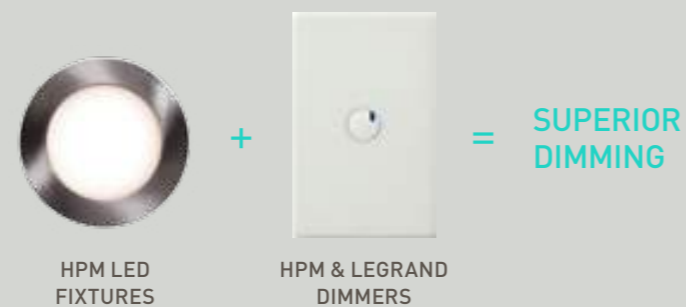

INCANDESCENT
1,000 HOURS

DIMMING COMPATIBILITY

Critical to a successful installation is an understanding of LED compatibility with dimmers. HPM is one of the only major brands on the market to deliver a full solution from dimmers to drivers and LED fixtures.

Choose the winning combination of HPM LED fixtures and HPM or Legrand dimmers to ensure superior performance — including smooth dimming with no flickering, reliability and long life.

GUIDE TO LIGHT PERFORMANCE

LIGHT OUTPUT	INCANDESCENT	HALOGEN	CFL	LED
220lm	25W	18W	5-7W	3W
420lm	40W	28W	7-8W	4-5W
720lm	60W	42W	11-12W	6-8W
930lm	75W	52W	13-18W	9-13W
1300lm	100W	70W	18-23W	16-20W

LUMINOUS EFFICACY (LM/W)

Picking a lamp fixture based only on wattage or physical size could result in the wrong choice: Wattage (measured in W) represents the power consumed by the luminaire. The actual output of a lamp is measured in lumens (lm): the more lumens, the more light emitted by the luminaire. A smart criteria for determining the efficiency of a light fixture is its Lumens/Watt ratio, which represents how much light the fixture delivers versus what it consumes to perform. This value is called luminous efficacy, and proves LED lights are more efficient than other light technologies.

BEAM ANGLE

The light effect from a luminaire is determined by its beam angle, that is the shape and direction of light generated by the lamp. Most conventional fixtures deliver a focused light distribution at 35-60° beam angle, but LED technology can go well above those values, while still maintaining a fair pool of light.

Our lights deliver beam angles ranging from 80 to 120° to ensure a beautiful light is spread throughout a room.

COLOUR RENDERING INDEX (CRI)

CRI measures how well a lamp makes colours appear. CRI scores light sources from 1 – 100: a high CRI means that the eye can pick up slight variations in colour, making details in an interior appear sharper and more vibrant. For outstanding colour rendering, opt for our HPM Dalia series which boasts a very high 92 index.

Our HPM downlights range from 80 to 92, to enhance skin tones, hues and textures in rooms.

OUR QUALITY PROMISE

DIMMING COMPATIBILITY

Many of our lights are capable of being dimmed effectively. For optimum dimming performance and to reduce flickering, use HPM or Legrand dimmers.

INSULATION RATING

All recessed luminaires included in this brochure have an IC or IC-4 insulation rating. This means insulation may abut or cover the LED luminaire.

NATA ACCREDITED LABORATORY

To ensure the highest possible quality assurance standards all HPM lighting fixtures and lamps are tested in our NATA accredited laboratory in Sydney

IP RATING

Many of our products are assured against insects and moisture, with IP ratings ranging from IP44 to IP65.

LIGHTING IS A POWERFUL TOOL FOR CREATING AMBIENCE. WHETHER YOU'RE AFTER GARDEN LIGHTS OR A DECORATIVE WALL LIGHT, WE HAVE QUALITY OPTIONS TO SUIT YOUR HOME.
