basin range

INTERNATIONALLY RENOWNED EUROPEAN BASIN RANGE FOR COMMERCIAL & DOMESTIC APPLICATIONS

This architecturally designed, functional yet contemporary range of products are manufactured to the highest international standards. Clean, elegant, and timeless.

The new basins are of the highest European quality all fully glazed for infection control, and most have various taphole and overflow options. Our new European range offers the same quality features and durability you have come to know and expect from Enware.

Suitable for a range of applications including:

- Health & Aged Care
- General Wash rooms
- Hand Wash applications
- Accessible Bathrooms
- Independent Living Units
- Public Amenities

Other products also available in compact, semi recessed square and round wash basins along with a range of optional shrouds for most basins.

Enware is accredited to ISO9001 the internationally acknowledged 'gold standard' of quality.

KOLO NOVA PRO

Contemporary wall mounted wash basins with large bowl and generous layoff area at rear for increased user area.

Basin bowl capacity ranges from 4.4L - 12L depending on the model chosen and optional shrouds are available for all models.

KOLO REKORD

Timeless and minimalist wash basin with a thin rim design with a larger inner bowl area to reduce splash potential. Soft curves and user friendly design for large commercial and health care applications. Rimmed design prevents water harbouring and ensure better drainage. Basin bowl capacity of 5L.

KOLO STYLE

Modern and versatile wall mounted wash basins with large bowl and useful area at side and rear, choice of left or right bowl. Rimmed design prevents water harbouring and ensure better drainage. 650mm wide with a bowl capacity of 6.5L Optional shroud available.

IFO RENOVA

Asymmetrical wash basin with the choice of left or right hand bowl. Generous layoff space with an easy to clean design with a fully rimmed user area and rounded corners. Suitable for wall or cabinet mounting.
