

## Structural Services

1

### FACADE SHOP DRAING SERVICES

Facade shop drawing services create precise, detailed plans for building exteriors. They ensure accuracy and efficiency in facade structure.

2

### PRE-ENGINEERED BUILDING SERVICES

Pre-Engineered Building services offer efficient, cost-effective building solutions, utilizing standardized components for rapid and streamlined project delivery.

3

### SCHEMATIC STRUCTURE DEIGN SERVICES

Schematic Structure Design Services provide foundational blueprints, guiding initial project phases for optimal structural planning and development.

4

### STRUCTURAL DRAFTING SERVICE

Structural Drafting Service delivers precise technical drawings, ensuring accurate representation and seamless communication in structure projects.

5

### STRUCTURAL ENGINEERING SERVICES

Structural Engineering Services: Precision in design, analysis, and optimization for safe, resilient, and efficient Buildings projects.
